

**Cardboard Box Puppet Theatre:**  
 Have an adult cut a box to use as shown.  
 Finger puppets enter from above.  
 Props are lowered down on their sticks.  
 Back drops are to be hand drawn on paper  
 cut to fit your chosen cardboard box.

**Template for Finger Puppet Holes:**  
 (best on cardstock)  
 If your kids are going to design their own puppets  
 for a favorite book, give them this template (best  
 made on cardstock) to add to the bottom section  
 of their puppets as they design, for the finger  
 "legs". Help them cut out the black dots for their  
 fingers.

**Props for Finger Puppet Show:**  
 1) Color  
 2) Cut out  
 3) Glue or tape onto a skewer or popsicle  
 stick with stick extending upwards.

**Puppet Instructions: (best printed on cardstock or laminated, but laminate BEFORE cutting out)**  
 1) Color and cut out the puppets.  
 2) Have an adult cut out the black dots for fingers to stick thru as legs. May be adjusted larger for Adult fin-  
 gers.  
 3) Fold toward back on dashed lines.  
 4) Stick a loop of tape on the backside so the puppet will stay upright for the performance (tape sticks to your  
 hand temporarily).
